There are 38 Baptist associations in South Carolina, 980 churches, 100,000 members. In 31 of the associations the State Missionary Board is at work, one third of the churches of the State are preached to by the State Missionaries. There are 100 Missionaries employed by the State Union Board. The State Union Board was organized in Newberry in 1868. In the last 16 years 118 new churches have been established and 17,055 members added to the churches through the board's work. Missionaries have sold \$59,000 worth of books in 16 years and during the same time \$173,000 has been expended on State missions. There has been one conversion for every \$1400 paid to the Missionaries, and one person added to the church for every \$10,000 expended, while in the regular church there has been one addition to every \$20 paid in.

The report on Foreign Missions submitted by Rev. L. W. Swope. The missionary sermon was preached by Rev. E. A. McDowell from the 6th-19-20-21 verse of Matthew.

Resolution submitted by Rev. McDowell that our association raise \$350 for State missions the next association year and that the Executive Committee apportion the amount among the churches.

ary sermon by Rev. N. N. Burton. Constitution and by-laws to be published in the minutes.

The State Mission Board has two woman missionaries in the State. There are 41 missionaries in the mill towns. There are 62,000 people in the mill towns of the State and 42,000 people work in the mills. The State Board is doing a great work for the mill people.

Plenty of Room in Heaven.

[The Commoner]

The public has frequently been treated to unique statistics, but it is safe to say that nothing in this line is more interesting than that given by an expert mathematician who undertakes to describe the dimensions of heaven. This genius takes a basis for his calculations the verse "And he measured the city with the reed twelve thousand furlongs. The length and the breadth and the height of it are equal." The result of this mathematician's work are described by a writer in the Chicago Tribune as follows: "The entire space represents, 469,788,088,000,000,000 cubic feet. He generously concedes half of this space for the throne and the court of heaven and half its remainder for streets, which would still leave 124,198,272,000,000,000,000 cubic feet. Dividing up this space he gets 30,321,843,750,000,000 rooms sixteen feet square. Figuring in a like airy way upon the population of the earth he finds that if 100 worlds containing the same number of people as this should send all their inhabitants for a thousand centuries to come to heaven there would be more than 100 of the sixteen-foot square rooms for each person."

Truth does not need any proof or evidence, for the real truth is self-evident.
